

Sprint 1
(May 17, 2019
- May 23, 2019)

To Do

In Progress

Done

User Story 1:
Variables and
Formulas

Make simple
list of
variables and
formulas for
initial test

Set up
GitHub or
Trello, and
learn how to
use them

Decide on
name for
software

Create simple
code to solve
initial variables
and formulas

Set up sprint
schedule for
whole project

User Story 2:
GUI

Decide how
interface should
look and function,
and make sample
